Dear Mrs. Allewijn,

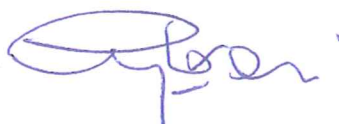

Thank you very much for your donation of € 17.000,- for the benefit of children that we have received. UNICEF spends your contribution to help children around the world who grow up in extremely difficult circumstances. We appreciate it very much that your organization helps us with this important work. UNICEF is entirely dependent on voluntary donations like yours.

Unite for Children

Thanks to your contribution children who would otherwise never receive education can go to school. UNICEF also provides medical care, clean drinking water and proper sanitation. We protect children who, by natural disasters, wars or conflicts are in unsafe situations. Within these projects UNICEF works together with local organizations and the government, so the work continues even when UNICEF eventually withdraws. Hence, your donations contribute to structural support with tangible results.

With your contribution, you show that you are concerned about the fate of children worldwide. And thus the world itself. Because who helps a child, contributes to a better future. On behalf of all children, thank you for your contribution.

With Kind Regards,

Jan Bouke Wijbrandi
Director UNICEF the Netherlands
